

SCENT

As part of our full-service offer, we can equip you for enhancing your commercial spaces through an advanced scent experience. A subtle yet **impactful addition to any business environment**, a scent marketing solution breathes new life into retail spaces and sets the tone for an **unforgettable consumer experience**.

84% of candidates are likely to purchase more when in a scented room. (Smell and Taste Research Foundation)

With a **tailor-made olfactory ambience**, Stingray360 will help you stand out by **influencing emotions**, just like the perfume of a loved one that will forever be associated to cherished moments.

NEBULIZATION

Let us introduce you to the new generation of advanced air fresheners with our superior and patented technology: **nebulization**.

This technology **neutralizes odors** and releases a light, delicate fragrance, **without toxic risks** or overpowering scents. Nebulization generates droplets that are 1,500 times smaller and 125,000 times lighter than spray droplets. The diffusion can cover a large surface without ever leaving any deposits.

A SCENT LIKE NO OTHER

Pick **your favourite scent** from our **large inventory of fragrances** created by one of the largest, high-end fragrance labs in the world or let us create your own **personalized and exclusive scent**.

Make sure you leave an **ever-lasting impression** in both the conscious and the subconscious minds of your clients.
